

ENVSCI 708, Semester 2, 2025

Research plan and field/lab work

Group Work Evaluation Sheet; to be submitted via Canvas by each student; the evaluation below is about your specific research team.

Your name: Yuehan Luo

Your partners' names: Peter & Michael & Lachlan

Did your partners 'attend' each field/lab session and other meetings you scheduled as a team?	yes
Did you 'attend' each field/lab session and other meetings you scheduled as a team?	yes
What % of the total assignment (research plan plus field/lab work) do you feel you were responsible for?	25%
Do you feel your partners made a fair and equitable contribution to the research plan plus field/lab work (remembering there are many ways to contribute)?	yes

Describe your contribution to the research plan, field and lab work:

I completed the first full draft of the research plan, and during the fieldwork I measured soil moisture and soil temperature.

Describe your partners' contribution to the research plan, field and lab work:

Peter: Refined and optimized the draft of the research plan, ensuring clarity and quality.

Lachlan: Completed the field activity forms and measured light conditions during the fieldwork.

Michael: Shared valuable ideas that contributed to the development of the research plan.

All members: Contributed to discussions that helped improve the quality of the draft.

Provide any additional comments you feel are important:

The teamwork was smooth and collaborative, with everyone contributing in meaningful ways.
